

Disability Living Allowance

If you're looking after a child who is under 16 with a health condition or disability, they may qualify for Disability Living Allowance. This information covers England, Wales, Scotland and Northern Ireland.

See carersuk.org/covid-19-a-z for specific updates relating to Disability Living Allowance during the COVID-19 pandemic.

What is Disability Living Allowance (DLA)?

If you are looking after a child with a health condition or disability who is under 16, they may be entitled to DLA. This can help towards the extra costs of bringing up a disabled child. DLA is not means-tested which means that your financial circumstances will not be taken into account, and it is a tax-free benefit.

DLA does not reduce other benefits. In fact, it may even increase another benefit you receive or help you to qualify for other benefits (such as Carer's Allowance) and/or tax credits. If your child is aged 16 or over and is not currently receiving DLA, they would need to claim Personal Independence Payment (PIP) instead.

►► **Note:** In Scotland, a new Child Disability Payment will replace DLA for children. You can apply from summer 2021 with a full roll-out from autumn 2021. This will be paid until your child reaches 18. The new benefit will have similar rules for claiming as DLA for children. If your child is currently receiving DLA for children, you do not need to do anything as this will continue.

However, if your child is nearing 16, you will receive a letter from the DWP. They'll let you know that you can choose to either get DLA for children (or Child Disability Payment) until the age of 18 or apply for Personal Independence Payment (PIP). Find out more at: mygov.scot/disability-living-allowance-children/

Who can claim DLA?

For a child under 16 to qualify for DLA, they must meet all of the following criteria:

- They must need care, attention or supervision because of a physical or mental disability or health condition (they do not need to have an actual diagnosis).

- They must have needed this care, attention or supervision for at least three months, and be likely to need this for a further six months (you can make the claim before the three months have passed, but you will not receive any payment until they have).
- They must need substantially more care, attention or supervision than other children of the same age who do not have a disability or health condition.
- They must not have any immigration conditions attached to their stay in the UK, subject to some exceptions. (If they have immigration restrictions on their stay in the UK, claiming benefits may affect their future right to remain in the UK.) Seek specialist immigration advice before claiming – you can search for immigration specialists at find-legal-advice.justice.gov.uk or lawsoc-ni.org/solicitors (in Northern Ireland).
- They meet the residence and presence conditions.

▶▶ **Note:** If your child is terminally ill, there are simpler rules which make it easier to apply – see page 8 for details.

How much is DLA worth?

There are two components of DLA:

	Lower	Middle	Higher
Care component	£23.70	£60	£89.60
Mobility component	£23.70		£62.55

The care component

The care component of DLA can be paid to a child who needs a lot of extra help with personal care, supervision or being watched over. The help they need must be substantially more than the help needed by a child of the same age without a disability or health condition.

<p>Lower rate component</p>	<p>For children who need help in connection with their personal care for a significant proportion of the day. (This generally means at least an hour a day – although this does not necessarily have to be all at once.)</p>
<p>Middle rate component</p>	<p>For children that have either daytime or night-time needs (see below). Special rules apply for some children undergoing renal dialysis at least twice a week.</p>
<p>Higher rate component</p>	<p>For children that have both daytime and night-time needs (see below). Your child will automatically get the higher rate if they are terminally ill.</p>

Daytime test

To satisfy the daytime test, your child must need one of the following:

- frequent help with personal care (ie about three times a day or more) throughout the day
- someone to check on them continually (ie frequently or regularly) throughout the day to make sure they are safe.

Night-time test

To satisfy the night-time test, your child must need one of the following:

- help with personal care at least twice a night, or once a night for at least 20 minutes
- someone to check on them at least twice a night, or once a night for at least 20 minutes to make sure they are safe.

Explanation

Help with personal care includes activities such as:

- dressing and undressing
- bathing and washing
- using the toilet
- getting in and out of a chair
- getting in and out of bed and sleeping
- communicating
- help with medication and treatment
- eating and drinking
- seeing (ie they need someone to see for them)
- breathing.

A child is considered to need **someone to check on them** if they need to be checked on regularly during the day to avoid ‘substantial danger’ to themselves or others.

The mobility component

If your child needs help getting around, they may qualify for the mobility component. You need to show that your child is unable or virtually unable to walk and/or needs substantially more guidance and supervision than a child of the same age without a disability or health condition.

Lower rate mobility component	This can be paid to a child from the age of five years. It is for children who can walk but who need extra guidance or supervision on unfamiliar routes outdoors.
Higher rate mobility component	This can be paid to a child from the age of three years. It is for children who are unable or virtually unable to walk, or where the exertion required to walk would constitute a danger to their life or would be likely to lead to a serious deterioration in their health. Children can also qualify if they have a severe visual impairment, are both deaf and blind, or are severely mentally impaired.

Summary: Your child must be under the age of 16. For the lower rate mobility component they must be aged over five and for the higher rate, they must be aged over three.

To qualify for the higher rate mobility component because of **severe mental impairment**, the child has to meet all the following criteria:

- be entitled to the higher rate care component of DLA
- suffer from a state of arrested development or incomplete physical development of the brain which results in severe mental impairment of intelligence or social functioning
- exhibit ‘disruptive behaviour’ which is extreme and ‘regularly requires another person to intervene and physically restrain them to prevent them from causing injury to themselves or to another, or to damage property’
- be so unpredictable that they require another person to watch over them whenever they are awake.

How to claim DLA

England, Wales and Scotland

- Call the Disability Living Allowance Helpline on **0800 121 4600** (textphone 0800 121 4523).
- Visit [gov.uk/disability-living-allowance-children](https://www.gov.uk/disability-living-allowance-children) to download a claim form.

Northern Ireland

- Call the Disability and Carers Service on **0800 587 0912** (textphone: 0800 012 1574).
- Visit nidirect.gov.uk/dla to download a claim form.

If you ask for a claim form by phone, it should be stamped with the date of issue. This is the date from which the benefit will be paid if the claim is successful, providing you return the form within six weeks. If you're not able to complete the form by this date, please let them know and seek advice.

If you download the claim form or get one from a local advice agency, the claim will start from the date the completed form is received. Read the form and the notes that go with it before you start to complete the form. You can attach pages to the application form if you think there is not enough space

to explain the help that your child needs. Remember to add your child's name and date of birth to the extra pages.

Tips for completing the claim form

- The form is long and detailed so take your time to complete it, and remember that you don't have to complete it all in one go.
- List all of the help your child needs before completing the claim form.
- If you are not sure about how much help your child needs, or how long things take, keep a diary for a week or so to give you an idea.
- Say how often your child needs help, rather than how often they get help.
- It can be very difficult to do so, but try to concentrate on the difficulties your child has and the extra support they need compared to other children of the same age.
- Try to use examples to describe your child's needs where possible – don't just rely on the tick boxes.
- Remember that the person who is looking at the form will not know your child and may not know anything about the condition.
- There is a page on the claim form called 'Statement from someone who knows the child' and if there is a professional (ie a school teacher, GP, therapist etc) who could write knowledgeably about your child, put their details on this page (if not you can fill it in yourself).
- If you put down the details of a professional, make sure the person is relevant. For example, if your child's needs are mainly night-time needs, there may be little point asking the school for details of their condition.
- If you give details of more than one professional on the form, make it clear which one knows your child the best.
- The Department for Work and Pensions (DWP) or Department for Communities (Northern Ireland) may write to one of the professionals you list on the form, so make sure you inform the professionals that you are putting their details down.
- You could ask for help to complete the claim form from a local advice agency - see 'Further help' section.

If your child has a terminal illness

Special rules allow children who are terminally ill to get help quickly. A child is considered to be terminally ill if they have a progressive illness that is likely to limit their life expectancy to six months or less. It is impossible to say exactly how long someone will live and some children who receive DLA under these rules live much longer than six months.

Under these special rules, you do not have to satisfy the qualifying period (ie that they much have needed, care, attention or supervision for at least three months, and be likely to need this for a further six months). They also do not have to have been present in Great Britain for 104 out of the last 156 weeks before claiming – they only need to be present at the time of claiming.

If you are claiming DLA for a child under these rules, their claim should include a DS1500 form, which is available from your GP or consultant. You do not have to complete the main part of the claim form that asks about your child's personal care or supervision needs as they will automatically qualify for the higher rate care component. You will, however, have to complete the sections about any mobility problems your child has for them to be awarded the mobility component.

The decision

You will receive a written decision on your claim that tells you what rates of DLA your child has been awarded and from what date.

DLA can be awarded for a fixed period or for an indefinite period. If you are awarded the benefit for a fixed period, the decision will tell you when the period ends. A new claim form will be sent to you well before your child's award ends. To find out more about what happens if your child is soon to turn 16 years old, see page 14.

Challenging the decision

If your child is refused DLA or is awarded it at a lower rate than you expected, you can ask the Department for Work and Pensions (DWP) (England, Wales and Scotland) or the Department for Communities (DfC) (Northern Ireland) to look at the decision again. You must do this before you appeal. This is called a mandatory reconsideration.

If you still disagree once they have done this, you must lodge an appeal with the Tribunal Service (England, Wales and Scotland) or the Appeal Service (TAS) (Northern Ireland) and attach a copy of the mandatory reconsideration notice with the appeal.

It is important to challenge a decision or get advice as quickly as possible because there are time limits that generally mean you must take action within one month. If you fall outside of this time limit then it may still be possible to challenge the decision. For more information about appealing a benefit decision visit carersuk.org/appealsguide

What to do if your circumstances change

If your child already gets DLA but they now need more help, it may be possible to get their award increased. You can contact the DWP (or Disability and Carers Service in Northern Ireland) and ask for your child's award to be looked at again.

If you ask for a DLA award to be looked at again, there is always the risk that the award could be decreased rather than increased. Therefore, it is always best to get help from a local advice agency before you contact the DWP (or Disability and Carers Service in Northern Ireland).

If your child is 16 or over and you ask for a DLA award to be looked at again, it is likely to instead be treated as a new claim for PIP – see page 14 for more details.

Going into hospital or a care home

DLA can be affected by your child having overnight stays away from home. There are different rules for this depending on whether your child goes into hospital or a care home.

Stays in hospital

If your child is under 18 when they enter hospital, their DLA can continue to be paid for the whole time they are there.

Stays in a care home

If your child is in a care home (which usually includes residential schools), generally payment of the care component will stop after 28 days. However, they can be paid the care component for any day they stay in your home, including the day they come home and the day they return. The mobility component is not affected by stays in a care home.

The rules differ if your child's stay in a care home is funded by NHS continuing healthcare, or if you pay for the care home yourself. If this situation applies to your child, seek further advice – see the 'Further help' section.

Stays your child has in a care home separated by 28 days or less are added together when working out when their DLA should stop. This is known as the 'linking rule'.

Other help you may qualify for

Means-tested benefits and tax credits

If your child has been awarded DLA, it is always a good idea to check if you are entitled to an increase in any means-tested benefits, tax credits or Universal Credit that you are already getting, or if you might be entitled to any means-tested benefits or tax credits that you are not currently getting.

If you're already receiving any means-tested benefits, tax credits or Universal Credit, you should notify all of the offices paying them that your child is now receiving DLA. Please note – you can still get the extra amounts below in Child Tax Credits and Universal Credit even if your child is not included in your claim due to the 'two child limit'.

DLA and Child Tax Credits

Child Tax Credit is assessed more generously when a child receives DLA. This is because families will qualify for an extra disability element which will increase the amount of Child Tax Credits they are awarded. If your child is awarded the higher rate care component of DLA, a severe disability element will increase the amount of Child Tax Credit even more.

DLA and Income Support

If you still receive an amount for your child in your Income Support award, your child's award of DLA means you will qualify for a disabled child premium in your Income Support calculation. If your child is awarded the higher rate of the care component of DLA, an enhanced disability premium will increase the amount of Income Support even more.

DLA and Universal Credit

Universal Credit is assessed more generously when a child receives DLA. This is because families will qualify for an extra disabled child addition which will increase the amount of Universal Credit they are awarded. If your child is awarded the higher rate care component of DLA, a higher disabled child addition will increase the amount even more.

DLA and Housing Benefit

If you get Housing Benefit then getting DLA for your child may increase the amount of Housing Benefit you are awarded (if you are not already getting your rent covered through Housing Benefit in full).

Young Carer Grant (Scotland only)

Young Carer Grant is a yearly payment of £306.65 for young carers in Scotland. To be able to get Young Carer Grant, you must be 16, 17 or 18

years old. You must also have been caring for one, two or three people for an average of 16 hours a week for at least the last three months. If you care for more than one person, you can combine the hours of the people you care for to average 16 hours a week. Find out more at:

carersuk.org/scotland/help-and-advice/social-security/young-carers-grant

Getting a benefits check

You can find out about any benefits you might be entitled to and how much you should be paid by having an online benefits check (see following note).

▶▶ **Note:** You can get a personalised benefits check online, for example at: carersuk.org/benefits-calculator. It will take about 20 minutes to complete.

These online tools are not suitable for everyone. Special rules apply to some groups of people, for example students, people under 18, people in permanent residential care, UK nationals who live abroad and people who are not British or Irish citizens.

In Scotland

In winter 2021, Child Winter Heating Assistance will provide a £201 payment to families with a disabled child (who receives the highest rate of the care component) to help with winter heating costs. Read more here: mygov.scot/child-winter-heating-assistance/overview/

Exemption from the benefit cap

If your child is receiving DLA, this will mean that you are exempt from the benefit cap.

DLA and Carer's Allowance

If your child is awarded the middle or higher rate of the care component of DLA, you may be able to claim Carer's Allowance for providing them with care. To find out more about Carer's Allowance, visit carersuk.org/carersallowance to download our factsheet.

Help with transport costs

Motability

If your child is awarded the higher rate mobility component of DLA, you may be able to apply to the Motability scheme. Through this scheme you can use your child's mobility component to lease or buy a car, wheelchair or scooter. If you're unable to drive and need help with paying for lessons, or require help in getting a deposit for a car through the scheme, you may qualify for a grant. To find out more or apply for the scheme, contact Motability – see page 17 for contact details.

Blue Badge Scheme

If your child is awarded the higher rate mobility component of DLA, you should qualify for a Blue Badge, which will give you parking concessions. You might also qualify for a Blue Badge if your child isn't awarded the higher rate mobility component of DLA but meets certain conditions. In England, Wales and Scotland, contact your local council for further information or search online. In Northern Ireland, contact the Blue Badge Unit on **0300 200 7818**.

Road tax

You may be exempt from paying Vehicle Excise Duty if your child gets the higher rate mobility component of DLA. You will usually be told about this in your child's DLA award letter. Contact the DLA helpline for more details.

Public transport concessions

All local councils operate schemes for disabled people to help with the cost of travel. Such help is not directly linked to whether or not your child receives DLA. In some areas, the disabled person and a named carer accompanying them are entitled to free travel. Such schemes vary from one council to another so get in contact with your local council for further information on what is available in your area. In Northern Ireland, all bus and rail transport is operated by Translink – you can contact them on **028 9066 6630**.

Companion Entitlement (Scotland only)

If your child receives the middle or the higher rate of the care component of

DLA, or if they are registered blind, or live in a care home and are eligible to receive the middle or the higher rate of the care component of DLA, you can apply for a Companion Card. This allows a companion to travel with them for free. You should contact your council or visit Transport Scotland for further information at transport.gov.scot/concessionary-travel/60plus-and-disabled/.

What happens when your child turns 16 years old?

About Personal Independence Payment (PIP)

PIP is gradually replacing DLA for people who are aged 16 and over. (This is the case for everyone who was under 65 on 8 April 2013 in England, Wales and Scotland, or under 65 on 20 June 2016 in Northern Ireland.) Children who get DLA who are turning 16 will be invited to claim PIP shortly after their 16th birthday, even if they have an indefinite award of DLA.

The DWP (Disability and Carers Service in Northern Ireland) will write to the appointee of children approaching 16 years old to explain about PIP and to check whether the child will continue to need an appointee to act on their behalf. If they do not, then once the child turns 16 the DWP (Disability and Carers Service in Northern Ireland) will write to them directly inviting them to claim PIP. If they do still need an appointee because they can't manage their own affairs, the DWP (Disability and Carers Service in Northern Ireland) will begin the process of making the appointeeship.

In Scotland, there will be a choice for young people/families as to whether they receive PIP or continue to receive the Child Payment (see page 2).

To find out more about PIP, visit carersuk.org/pip to download our factsheet.

PIP decision

If a young person makes a claim for PIP, their DLA will continue to be paid

until a decision is made on their PIP claim. When the decision on their PIP claim is made, their DLA will end even if they currently have an indefinite award. If the young person is awarded PIP, it may be the same amount or more or less than their current DLA. This could affect other benefits that the young person, or others in their household, may receive.

Special rules for terminally ill people

Those who are being paid DLA under the special rules for terminally ill people will be invited to claim PIP at the end of their existing DLA award.

Residence and presence

To satisfy the residence and presence tests you must meet both the following conditions:

- You must have been present in Great Britain (which for this purpose also includes Northern Ireland) for 104 weeks out of the 156 weeks before claiming (two out of the last three years).
- You must be habitually resident.

‘Present’ means physically present in Great Britain, although some people may be treated as being in Great Britain while abroad. The past presence test does not apply to people recognised as refugees and their families.

The rules in this area can be complicated. You can get advice and support from your local Citizens Advice: citizensadvice.org.uk/about-us/contact-us/contact-us/contact-us/. The AIRE Centre can also provide advice on individual rights in Europe and can be contacted on **020 7831 4276** or by email at info@airecentre.org

If the child is under six months old, a 13-week presence test applies until their first birthday. If they are aged 6-26 months, the test is 26 in the last 156 weeks.

The habitual residence test is a test to see if your child normally lives in the United Kingdom, the Channel Islands, the Republic of Ireland or the Isle of

Man. The test will be applied if you have been living abroad. There is no precise legal definition of ‘habitual residence’. Relevant factors are where they normally live, where they expect to live in future, their reasons for coming to this country, the length of time spent abroad before they came here, and any ties they still have with the country where they have come from.

Further help

Our website contains a wealth of useful information on the financial and practical matters related to caring. Visit [carersuk.org](https://www.carersuk.org) and click on “Help and Advice” in the main menu.
