

Senior Content and Development Officer

Candidate pack 2026

Overview of Carers UK

Carers UK is the leading national charity supporting, advocating for and connecting unpaid carers across the UK. We exist to make life better for unpaid carers, however caring affects them. Despite being a relatively small charity, we regularly punch above our weight and we have achieved meaningful change and we have influenced almost every piece of legislation concerning carers over the past 60 years; from the first ever 1967 legal rights for carers, to the 2024 Carers Leave Act. We have carers experience at the heart of everything that we do. Unpaid carers save the economy an estimated £445 million each day (England and Wales) and are vital to the friends and family members they support, as well as to the wider community. Our support, advice, information and campaigning work are now needed more than ever, as unpaid carers are providing more and more care, adversely impacting on their own health and wellbeing.

Our mission is to make life better for carers:

- We give expert advice, information and support.
- We connect carers so no one has to care alone.
- We campaign together for lasting change.
- We innovate to find new ways to reach and support carers.

Our Vision:

We want a society that recognises, values and supports carers and to halve the time it takes for carers to recognise themselves as carers.

The last published census in 2021 showed there to be 5.8 million unpaid carers in the UK.

However, recent research carried out by Carers UK estimates that the true number of unpaid carers in the UK is as high as 10.6 million, with 12,000 people becoming carers every day.

Testimonials

“Twelve years at Carers UK: even the interview I attended was special. Within a few minutes it became clear that the two people interviewing me were part of an organisation that found it very important to live up to the values it held.

“It was by chance that I applied for a post in the caring sector - after my previous employer closed down I was looking for something where I could use my skills in such a way that I could fit my hours around caring for a toddler that needed a lot of looking after at the time. The panel assured me that its flexible working policy and the ability to work from home when needed - long before remote working became a thing - would cover my circumstances.

“Carers UK lived up to that promise and I never once felt pressurised in cancelling a school or doctor’s appointment. For my part, I was always happy to go the extra mile to get the job done - trust builds trust.

“I discovered early on that when I tried to align my approach to the Carers UK way of doing things, my job became ten times easier. I learned how the decision making process worked, and my own contributions became that much more effective.

“Carers UK continues to do an outstanding job in its sector, from changing the law of the land to changing public awareness of what it means to be a carer, what it contributes to the country and how to improve the lot of carers. This adds immeasurably to the job satisfaction I have derived from working at Carers UK.

“In our 60th year of existence, I am immensely proud of being part of an organisation that will stop at nothing to make life better for carers while always valuing the workforce that makes it possible.”
