

Do you look after someone?

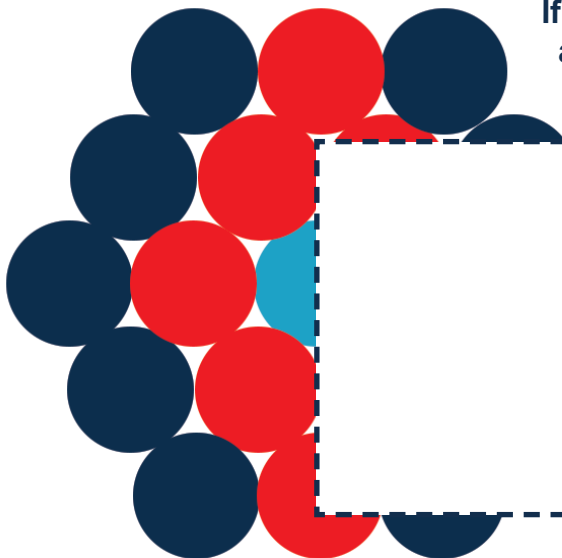

If you care for a family member or friend who couldn't cope without your support you are an unpaid carer.

We work hard to be a Carer Aware Pharmacy to make sure that we give you the recognition you deserve and the support you need.

Please let a member of the pharmacy team know if you are an unpaid carer. Letting us know helps us to give you the best information, advice and support possible.

If you would like more information about other support available to help you please contact:
